

## NEOWARE c50

FASTER. EASIER. EXCELLENT VALUE.

### FASTER

Neoware c50 gives you top-notch performance in a compact thin client. It is more than twice as fast as our entry level thin client with a high speed processor and double-speed memory.

### EASIER

You won't find a thin client that's easier to install or use. With USB 2.0, the Neoware c50 makes it easier to connect to popular devices. Just plug it in, turn it on, and get right to work. No special server configuration is required. Set up your first Neoware c50 the way you want it, and then simply duplicate those settings to thousands of others, anywhere on your network.

### EXCELLENT VALUE

Neoware c50 provides the greatest value at a low price. It keeps saving you money—no ongoing maintenance costs, and lower ongoing capital costs, since they last much longer than PCs. And with many ports and peripheral support you get more for your money.

### NOW FEATURING . . .

- Faster and lower power-consuming DDR2 Memory.
- Twice the memory for the same low price!

### VIRTUALIZE YOUR DESKTOP

Neoware allows you to combine the consolidation benefits of server virtualization with the traditional security, management, and cost benefits of thin clients. End users can quickly access desktops hosted in the data center remotely while reducing organizational PC maintenance costs. VDI editions are available on Neoware's most popular thin clients and are fully compatible with virtualization initiatives from VMware, IBM, and Citrix.

### BUILT FOR SERVER MANAGEMENT

Neoware c50 is designed to fulfill the benefits of server managed computing. Neoware c50 provides a secure client platform with locked-down user accounts, so you can continue to deliver a rich user experience while retaining enterprise control over the environment.

### PC-QUALITY VIDEO

Imagine—video performance like a PC in a thin client family. At up to 1600x1200 resolution or up to 32 bit true color, Neoware c50 leads the industry in video performance.

### MORE PORTS, MORE PERIPHERALS

Neoware c50 offers more peripheral support than many other thin clients, including serial, parallel, PS/2 keyboard and mouse, two USB 2.0 ports, full internal audio support—plus support for wired and wireless networks. This isn't a stripped down model that limits your choices.

### GO WIRELESS

With Neoware's optional USB Wireless, Neoware c50 provides access to all your network resources over wireless connections. Get the flexibility to access information wherever and whenever you need it.

### OPEN, STANDARDS-BASED TECHNOLOGY

Utilizing open, industry-standard protocols rather than proprietary, home grown solutions enables Neoware to provide quicker access to the latest technologies from Microsoft, Citrix and other industry leading software providers. As a result, you'll always have access to the latest technology, protecting your investment.

### NEOWARE-CLASS SECURITY

Neoware c50 includes unique, Neoware-developed enhanced security, which makes it rock-solid in enterprise environments, including a read-only file system that virtually eliminates standard PC viruses.

### OPEN, NO-TOUCH MANAGEMENT

Open Management gives you choice, flexibility and lower costs. Every Neoware thin client comes bundled with Neoware Remote Manager, a powerful thin client management tool with a friendly, easy to use graphical user interface. Neoware Remote Manager lets you manage all your desktops – without touching them! Discover, configure, shadow, connection-clone, update and upgrade your thin clients without visiting the desktop. Not only can your Neoware thin clients be managed by Neoware Remote Manager, we also provide software to support IBM Tivoli, Microsoft SMS and Altiris, giving you greater flexibility and the option of using a single management tool to manage both your PCs and thin clients.

### GLOBAL EXPERTISE

Millions of people at thousands of companies around the globe rely on Neoware for high-quality products and superior service. Neoware thin clients are open, secure, reliable, affordable, manageable and obsolescence-free. Neoware has the global expertise to help you migrate to thin clients, integrate mainframe applications, remotely manage your PCs, train your people, and create the best possible solutions enterprise-wide. Whether you're new to server-based computing or expanding your network, Neoware professionals located around the world can evaluate your environment, recommend the optimum solution, and implement that solution on time and on budget.

## HARDWARE CONFIGURATION

<b>FORM FACTOR</b>	Compact stand alone industrial strength steel case
<b>CPU</b>	VIA Eden
<b>FLASH/RAM CONFIGURATIONS</b>	
Upgradeable to Maximum (flash/RAM)	1 GB/512 MB DDR2
<b>VIDEO</b>	
Maximum Video Resolution and Refresh Rate	
@ 8-Bit Color	Up to 1600x1200 @ 85 Hz
@ 16-Bit Color	Up to 1600x1200 @ 85 Hz
@ 32-Bit Color	Up to 1600x1200 @ 60 Hz Up to 1280x1024 @ 85 Hz
<b>AUDIO</b>	
Mic In	•
Speaker Out – 1/8 inch (3.5 mm) jacks	•
Internal Speaker	•
<b>NETWORKING</b>	Autosensing, 10/100 Ethernet, RJ-45, WakeOnLAN, PXE boot, external USB wireless options (a/b/g)
<b>I/O AND EXPANSION</b>	
Serial Port – D-Sub 9-Pin Male Connector	1
Parallel Port – D-Sub 25-Pin Female Connector	1
USB Ports – Type A 2.0	2
PS/2 Ports	1 keyboard / 1 mouse
<b>PERIPHERAL SUPPORT</b>	
Local Printer Support in ICA, RDP, & local applications*	•
USB Drive Support (including flash drives)*	•
USB Smart Card Support*	•
USB Biometrics Device Support*	•
Touch Screen Support	•
Modem	•
<b>PHYSICAL SPECIFICATIONS</b>	
Dimensions	1.4" W x 9.5" H x 8.2" D, 3.6 cm x 24.1 cm x 20.8 cm
Shipping Weight with Keyboard	8.2 lbs (3.7 kgs)
<b>ENVIRONMENTAL</b>	
Operating Temperature	32-95° F (0-35° C)
Operating Humidity	20-80% non-condensing
<b>POWER REQUIREMENTS</b>	100-240 VAC, 50-60 Hz 25 W typically
<b>COMPLIANCE CERTIFICATIONS</b>	FCC, CE, VCCI, TUV GS, C-TICK, cUL, GOST, SABS, S-MARK, CCC, WEEE, RoHS

## OPERATING SYSTEM OPTIONS

<b>LINUX</b>	•
<b>WINDOWS CE</b>	•
<b>WINDOWS XPE</b>	•
<b>WINDOWS XPE PLUS</b>	•

## BACK PANEL
